

## REMARKS

### Amendment to the Specification

The specification of the instant application is amended to incorporate the sequence listing, filename "07-1047-WO-US\_SeqList.txt" (4,000 bytes in size, created on June 28, 2008), submitted electronically on July 7, 2008. Applicants submit that the sequences submitted in the sequence listing do not add new matter, and support for the sequences can be found in the specification as originally filed. Specifically, support of sequences can be found throughout the specification, for example, in the originally filed specification on page 5.

### Sequence Listing Statement

Applicants submit the sequence listing in accordance with 37 C.F.R § 1.821(a) – (d) and 37 C.F.R § 1.822-1.825, and which is generated from originally filed specification and figures. The undersigned representative hereby declares that in accordance with 37 C.F.R § 1.821(g) the content of the sequence listing does not constitute new matter. Under EFS-Web filing procedures, Applicants believe that they need to submit only an electronic version of the sequence listing in order to comply with the rules for submission of sequence listing.

Respectfully submitted,
